

# BLACKSTONE VALLEY PREP

*Preparing every scholar for success in college and the world beyond.*

## Third Grade Work Packet

We are sending these materials home today in the event that we move to virtual learning at some point in the near future. Teachers will assign work from these and other resources, and we will work with you to understand which of these materials will work best for your family. Through all of this, our goal is to continue the learning of your scholar!

### Reading and Writing

- Each scholar is coming home with a copy of **Where the Mountain Meets the Moon** today. In this packet you will find some assignments that may be assigned to accompany this book.
- Each scholar is coming home with 1 or 2 additional books today. In the event of a longer term closure, teachers will provide additional assignments to accompany these.
- **Scholastic Story Starters:** [www.scholastic.com/teachers/story-starters/](http://www.scholastic.com/teachers/story-starters/): Use this site to generate ideas for stories to write.

### Math

- **Math Workbook.** This packet comes from our partners at Achievement First. Scholars can work on any portions of this book, and teachers may assign certain pages.
- **Khan Academy:** [www.KhanAcademy.org](http://www.KhanAcademy.org). This free website includes math lessons for each grade level. Most scholars should be familiar with it!
- **Zearn:** [www.zearn.org](http://www.zearn.org) This free website includes math activities for each grade level.
- **The Math Learning Center:** <https://www.mathlearningcenter.org/families/bridges2> This free website has math games and activities for families to do together.
