

BLACKSTONE VALLEY PREP

Preparing every scholar for success in college and the world beyond.

Sixth Grade Work Packet - MS2

We are sending these materials home today in the event that we move to virtual learning at some point in the near future. Teachers will assign work from these and other resources, and we will work with you to understand which of these materials will work best for your family. Through all of this, our goal is to continue the learning of your scholar!

Reading and Writing

- Each scholar is coming home with a copy of **Peak** today. In this packet you will find some assignments that may be assigned to accompany this book.
- **Scholastic Story Starters:** www.scholastic.com/teachers/story-starters/: Use this site to generate ideas for stories to write.

Math

- **Khan Academy:** www.KhanAcademy.org. This free website includes math lessons for each grade level. Most scholars should be familiar with it!
- **Zearn:** www.zearn.org This free website includes math activities for each grade level.

Science & Social Studies
